

Document checklist for T2 corporate tax filing

Please review the sections below. The first step is to provide CloudTax with access to your CRA business account, which allows us to retrieve several documents directly and reduces what you need to gather manually.

Step 1: Provide CRA business account access

Before gathering any documents, please add CloudTax as an authorized representative on your CRA My Business Account. This gives us direct access to your corporation's tax records and allows us to retrieve several items on your behalf.

How to do this: Log into your CRA My Business Account, go to Profile, select Authorized representatives, click Add, and enter CloudTax's Group ID: G9H69C. The process takes 2 to 3 minutes and access is granted immediately.

What we can retrieve from CRA directly

Once access is granted, you do not need to provide the following items. We will pull them directly from CRA:

Document	Status
Prior year T2 corporate tax return	Retrieved by CloudTax from CRA
Notice of Assessment (all available years)	Retrieved by CloudTax from CRA
Capital dividend account (CDA) balance	Retrieved by CloudTax from CRA
RDTOH and GRIP/LRIP balances	Retrieved by CloudTax from CRA
Any CRA correspondence or review activity	Retrieved by CloudTax from CRA
Corporate account balances and outstanding amounts	Retrieved by CloudTax from CRA

This means 6 fewer items for you and your accountant to gather.

Step 2: Documents we need from you or your accountant

The following items cannot be retrieved from CRA and must be provided by you or your accountant.

#	Document	Format	Notes
1	Prior year T2 return (client copy from your accountant)	PDF	Includes financial statements, schedules, and notes not available from CRA
2	Current year financial statements or trial balance	PDF, Excel, or software export	From your accountant or bookkeeping software

3	General ledger or chart of accounts (current year)	Excel, CSV, or software export	Detailed transaction listing
4	Bank statements, all business accounts (12 months)	PDF	Full fiscal year
5	Articles of incorporation	PDF	First engagement only

If applicable

Please include any of the following that apply to your corporation.

#	Document	Format	When applicable
6	Payroll records (T4 and T5 slips issued to shareholders)	PDF or payroll provider export	If salary or dividends were paid
7	Corporate investment account statements (12 months)	PDF	If the corporation holds investments
8	Trade confirmations or realized gains/losses report	PDF or CSV from brokerage	If there was trading activity
9	Adjusted cost base (ACB) records	Any format	If available (we can reconstruct if not)
10	Shareholder loan account details	Any format	If there is a shareholder loan balance
11	Home office expense details	Any format	If the corporation claims home office expenses
12	Vehicle / auto expense log	Any format	If the corporation claims vehicle expenses
13	Legal and professional fee invoices	PDF	If significant fees were incurred
14	Charitable donation receipts	PDF	If the corporation made donations
15	Holding company financial statements and T2	PDF	If a related holding company exists

What happens next

1. Provide CRA business account access (Step 1 above)
2. Gather and submit the documents listed in Step 2
3. Our CPA team reviews for completeness and follows up if anything is missing
4. We prepare your T2 corporate return
5. The completed return is provided to you (and your accountant) for review before filing
6. Once approved, we e-file with CRA and provide confirmation

Typical turnaround: 7 to 14 business days from complete documents received.

How to submit your documents

You will receive a secure upload link where you can upload your documents directly. Alternatively, your accountant can email documents to your assigned CPA.

If you have any questions about the checklist or are unsure whether a document applies to your situation, please do not hesitate to reach out.
